DETAILED ACTION

Response to Amendment

Applicant's arguments filed 12/09/08 have been fully considered but they are not persuasive. The Amendment and the response submitted by Applicant do not overcome the rejection made by examiner in the last office action.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 25 and derivatives with the first elected specie in claim 39 are rejected under 35 U.S.C. 102(e) as being anticipated by WO 02/071518 of record on 1449.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

The instant application is not entitle to the claimed priority to the German Application 102 39 701.5, filed on August 29, 2002 because the English certified translation of said priority document has not been submitted. Therefore, the effective filing date of the instant application is August 14, 2003 and WO 02/071518 is still valid as prior art under 102 (e).

Claims 25 and derivatives with the elected specie are rejected under 35 U.S.C. 102(a and e) as being anticipated by WO 02/36249.

Claims 25 and derivatives with the elected specie are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0265921.

The rejection is maintained for the reasons as stated in the last office action and for the following reasons:

Applicant's arguments are based on the steps of the process to form the product.

Note that this is the claimed product by process which is considered the claimed product by itself, unless Applicant provides evidence to show the unexpected characteristics by using specific steps of the process.

The references do disclose the products having the claimed formula, as required in the claimed product.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
